

CHANGE OF CLIMATE

Not Necessary in Order to Cure Catarrh.

The popular idea that the only cure for catarrh is a change of climate is a mistake because catarrh is found in all climates in all sections of the country; and even if a change of climate should benefit for a time the catarrh will certainly return. Catarrh may be readily cured in any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause all the mischief.

The treatment by inhalers, sprays, powders and washes has been proven almost useless in making a permanent cure, as they do not reach the seat of the disease, which is in the blood and can be reached only by an internal remedy, which acts through the stomach upon the blood and system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, throat and bronchial tubes and also catarrh of the stomach, is sold by druggists under name of Stuart's Catarrh Tablets.

These tablets which are pleasant and harmless to take owe their efficiency to the active medicinal principles of Blood Root, Red Gum and a new specific called Guaiacum, which, together with valuable antiseptics, are combined in convenient, palatable tablet form, and as valuable for children as for adults.

Mr. A. R. Fernbank of Columbus, Ohio, who suffered so many winters from catarrh that I took it as a matter of course, and that nothing would cure it except a change of climate, writes me to say that he has been cured of his catarrh by the use of Stuart's Catarrh Tablets, which he took in accordance with the directions on the box, and which he found to be a most effective and pleasant remedy.

"My nostrils were almost always clogged up with mucus, and the mucus was causing an inflamed, irritated throat. The thought of eating breakfast often nauseated me and catarrh gradually getting into my stomach took away my appetite and digestion."

"A druggist advised me to try a fifty-cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of catarrh by the use of these tablets; that he felt he could honestly recommend them to you. I took the advice and used several boxes with results that surprised and delighted me."

"I always kept a box of Stuart's Catarrh Tablets in the house, and the whole family used them freely on the first appearance of a cold or cold in the head, and with older people I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy."

Every visitor to Barr's Annex opening admired the beautiful decorations. These were furnished by Barr's own upholstery department, which has every textile used in fashionable, modern home furnishing.

FOR NEW CARNEGIE LIBRARY.

Plans Approved and Contract for the Building Let.

The Public Library Board of Jerseyville has approved the plans for the new Carnegie library building, which will be built on the corner of Third and Main streets, and the contract for the building has been let to the firm of J. H. Smith & Co., of St. Louis.

The contract for its construction was also awarded to the Southern Construction Company of East St. Louis for \$1,187. The work will be started within a few weeks and the new library will be located on the west side of the Courthouse square on the site formerly occupied by the parsonage of the First Baptist Church.

BIG TRUST MERGER
REPORTS ARE REVIVED

Louis C. Barnes of St. Joseph Is Unable to Accept Commonwealth Presidency.

COLONIAL MAY ABSORB RIVAL

Possible Liquidation Is Denied and Rumors of a Consolidation Receive Credence.

That Louis C. Barnes of St. Joseph is unable to accept the presidency of the Commonwealth Trust Company and that this company and the Colonial Trust Company will consolidate, or one will liquidate, was reported yesterday.

Officers of both companies denied that any proposition to absolutely retire from business was under consideration, and certain directors of the Colonial Trust indicated that this institution will absorb another company, whereby the business will be increased and benefited.

It was announced from several sources that Mr. Barnes, the millionaire banker of St. Joseph, had found it impossible to accept the presidency of the Commonwealth Trust, which was tendered him several weeks ago, and meantime no information has been given out concerning the plans.

Lawrence B. Pierce, third vice president, was the ranking officer of the Commonwealth Trust in the city yesterday, and when asked concerning the reported intention of liquidation, he stated that he had not heard the subject discussed.

In reference to negotiations with the Colonial, or any other plans his company is entertaining, Mr. Pierce would say nothing further than that the business was progressing satisfactorily.

After the meeting of directors of the Colonial Trust, one of the officials said: "While the stock dropped a few dollars from \$25 a share to about \$20 to-day, there are men in this room who would not sell for what they could have received for their Colonial holdings yesterday."

"I am not yet ready to say what the negotiations are, but I will state that we expect soon to increase facilities and add to the business of the company, which is in a healthy state."

Thomas W. Crouch, first vice president, who probably will succeed President Clark H. Sampson when the latter's term expires December 31, declined to state whether the Colonial expected to absorb the Commonwealth, with which negotiations were several weeks ago.

Mr. Pierce of the Commonwealth stated that if it were true that Mr. Barnes is unable to accept the presidency of the company this is a matter of which only their special committee would be advised.

This committee has under consideration several propositions, among which are the consolidation of the two companies, and it will not report to the board of directors for several days.

PREFERS ST. JOSEPH FOR HOME.

Barnes Gives a Reason for Refusing Commonwealth Presidency.

REPUBLIC SPECIAL.

St. Joseph, Mo., Nov. 26.—L. C. Barnes refused to accept the presidency of the Commonwealth Trust Company. He says he prefers to stay in St. Joseph, Mo., and is absolutely refuses to make any statement whatever.

POLICEMAN SAVES A CHILD FROM DEATH UNDER CAR.

Clara Mueller Dragged From Beneath Beliefontaine Division Motor by Patrolman Hurley.

Patrolman John J. Hurley of the Second District saved Clara Mueller, 8 years old, from death under a Beliefontaine car at California and Meramec about 3:30 yesterday afternoon at the risk of his life.

The child was on her way home from school, when she was knocked down by the car, and the policeman rushed forward and dragged her from beneath the trucks. He managed to get her out of the car, and just managed to get her out of the car, and just managed to get her out of the car.

TRAIN PLUNGED OVER
STEEP EMBANKMENT

Ten Persons Injured in an Accident at Mitchell's Trestle Near Greenville, Ill.

TWO OF THE VICTIMS MAY DIE.

Conductor and Passenger Pinned Beneath the Debris and Burned by Coals From the Stove.

REPUBLIC SPECIAL.

Greenville, Ill., Nov. 26.—While rounding a curve at a high rate of speed early this morning a Jacksonville and St. Louis passenger train plunged over an embankment, a distance of more than thirty feet, and a red hot stove was overturned in the rear coach. Those who were not crushed were badly burned by the live coals.

The list of injured is as follows: George Enloe, carpenter, Greenville; Jesse Williamson, carpenter, Greenville; Clyde McReaken, foreman; F. E. Chapman, Deputy County Sheriff, Sorento; Guy O'Hara, Sorento; R. Sturtenhoffecker, Tamaqua; Thomas P. Boyd, brakeman, Litchfield; H. M. Jackson, foreman, Litchfield; James Carter, conductor, Jacksonville; Callie Jones, Sorento.

Conductor James Carter of Jacksonville and Clyde McReaken of Sorento were pinned beneath the mass of debris, and the coals from the stove were sprinkled upon them. Carter and McReaken probably will die. It is expected that the others who were injured will recover.

In many respects this is one of the most peculiar railroad accidents which has ever occurred in Southern Illinois. The body of the rear coach was precipitated over the trestle and the tracks were left stationary.

Temporary dispensary was established in neighboring farmhouses, and a special train of surgeons was sent out from Litchfield. The injured were brought here and trained nurses were summoned from St. Louis.

The accident occurred at Mitchell's Trestle, a mile east of Ayers, where the trestle, which is over a gully, is seventy-five feet long and thirty feet high. The car plunged off and stood on its end.

B. F. Bond, chief engineer, is here tonight in charge of the injured, with six physicians furnished by the J. & S. L. R. R. Mr. Bond stated that everything possible was being done for the injured. He stated that something about the trucks of the car gave way and caused it to leave the rails.

NEW PUBLICATIONS.

A wonderful book and a wonderful success.

THE CONQUEST

By EVA EMERY DYE.

NO book published in recent years has more of tremendous import between its covers, and no book published in recent years has in it more of the elements of great and continued popularity. History, romance, adventure, daring, suffering, struggle, and accomplishment—the subjugation of a mighty race by a mightier one—the clearing of a continent, the building of a nation: it is the epic of America.

"A book that should make record-breaking sales."—Buffalo Commercial.

"The sense of the sweep of the conquering Anglo-Celt from the Atlantic to the Pacific will be gained from it as from nothing else in print."—Chicago News.

"It is no mere picture, rather a vast panorama."—Boston Journal.

"The essentially American theme dealt with in this book gives it an extraordinary interest for the whole American public."—Richmond Times.

"Should have an honored place in every American library."—Chicago Inter Ocean.

"To the young American—the boy in his teens—who has read of the brave Indian fighters of our early history, there is enough of the deeds of our forefathers and hairbreadth escapes to make the reading of the most exciting."—Nashville American.

"Its deeds of valor are not for love of woman, but for love of liberty and country. Its heroes are men of silence, men of adventure. Its music is the hum of the spinning wheel and the thud of the axe."—Toledo Weekly Blade.

"As well executed as it is well conceived."—Syracuse Post-Standard.

"Mrs. Dye has covered the field."—New York Times.

"The author's style is strong and graphic, the grasp of her subject so firm that it inspires confidence, and despite its wealth of historic lore, has not one dull page."—Detroit News.

"The style is brilliant, dramatic and enthusiastic. The reader is carried on from one exciting episode to another, and a series of vivid pictures is rapidly presented, keeping the interest alive from the first page to the last."—Cleveland Plain Dealer.

DECLINE IN SILVER

DISTURBS FINANCIERS

Payment of Chinese Indemnity to the Powers Regarded as the Direct Cause.

TRADE IS MUCH UNSETTLED.

English Merchants Are Becoming Alarmed on Account of Trade Conditions in India as Well as in China.

London, Nov. 26.—The continued decline in the price of silver causes some considerable comment in financial circles.

According to the best-informed houses it is regarded as being directly due to China's flooding the market with silver in payment of the indemnity to the Powers.

Prior to the recent disturbances, China was a large buyer of silver in London, but now the balance of trade is reversed, and instead of China taking silver in return for tea, silk and other articles imported into the Kingdom, she has to ship silver in payment of manufactured articles.

The Chinese contention that China should pay the indemnity at the higher rate of exchange in force when the recent peace treaty was signed finds some support among the leading English houses, who are not only alarmed at the prevailing conditions on account of the effects of the trade, but also on account of their large commerce with India. Rumors were first recently that the price of silver here to-day dropped to 23rd per ounce, while the quotation in New York was 44 1/2 per ounce.

TO STUDY EARTH FORMATIONS.

Professors Sampson and Weller Visit Chouteau Springs.

REPUBLIC SPECIAL.

Columbia, Mo., Nov. 26.—Mr. F. A. Sampson, secretary of the State Historical Society, left to-day in company with Professor Stewart Weller of Chicago University for Chouteau Springs, Cooper County, where they go to study the formations of subcarboniferous era. These formations are found only in a few sections of this part of the country, one being at Louisiana, Mo., and another at Burlington, Ia.

Professor Weller is assistant professor in the department of paleontology in the Chicago University and is a Missourian, having been raised at Springfield and educated at Drury College, afterwards attending Cornell University. He is now on a visit to the university and for the purpose of accompanying Mr. Sampson on this trip to the Chouteau Springs district, he being thoroughly familiar with that section of the country and with the formation peculiar to the district.
